PROFESSIONAL SUMMARY

Full-Stack Developer with strong expertise in building scalable web applications using modern technologies like React.js, Node.js, Express, and MongoDB., writing clean and maintainable code, and collaborating on innovative software solutions that drive business growth.

EDUCATION

Sandip University, Nashik | B.Tech in Computer Science (2022 – 2026)

CGPA: 7.50 / 10

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap, Material-U I

Backend: Node.js, Express.js, MongoDB, Mongoose, REST API, JWT Auth

Developer Tools: Git, GitHub, Docker, VS Code, Render, Firebase, Vercel, npm

CS Fundamentals: Data Structures and Algorithms (DSA), OOPs, DBMS, OS, C

EXPERIENCE

Full-Stack Developer Intern

June 2024 – Dec 2024

BigHost India Private Limited, Nashik, Maharashtra, India

- Developed and maintained full-stack web applications using **MERN Stack (MongoDB, Express.js, React.js, Node.js)**.
- Implemented RESTful APIs and optimized database queries for better performance.
- Collaborated with team members to design scalable and user-friendly interfaces.
- Hands-on experience in **Full-Stack Development, API Integration**.

Web Developer Intern

Aug 2022 – Sep 2022

Calibers-InfoTech, Nashik

- Designed and developed responsive websites using **HTML, CSS, JavaScript, PHP, and Bootstrap**.
- Improved UI/UX of existing pages for better accessibility and user engagement.

PROJECTS

My Shop – E-Commerce Web Application (MERN Stack)

- Developed a full-stack e-commerce website using the MERN stack with secure JWT-based authentication and Cloudinary image hosting.
- Implemented product listings, cart management, and admin functionalities for product and order control.
- Designed a responsive, user-friendly interface with dynamic product listings, cart management, and an admin dashboard for order control.

News Aggregator — MERN Stack

- Developed a news aggregator web application using the MERN stack (MongoDB, Express, React, Node.js) integrated with the NewsAPI.org API.
- Designed a clean, responsive UI for categorized news viewing and improved user experience.
- The platform dynamically fetches and displays news articles from multiple sources, offering users categorized and real-time updates with a clean, responsive interface.

ACHIEVEMENTS

- Participated in SunHacks Hackathon and NASA Space Apps Challenge, gaining hands-on experience in collaborative problem solving and innovation.
